Message

It is with immense pleasure that I endorse the 2017 2nd International Conference on Computing and Communication Technologies (ICCCT'17) hosted this year by the Department of Information Technology, Sri Sai Ram Engineering College, Chennai to be held on 23rd and 24th February 2017.

Education makes a person wiser and provides with the understanding of distinguishing between right and wrong. Today's youths are responsible for using the ethical practices to bring a real change in the society. Literacy combats poverty, improves health and promotes social development. I believe this conference will set a path for the young minds to come up with increased amount of innovations.

To accomplish great things we must not only act, but also dream; not only plan, but also achieve. I congratulate the whole team for conducting this conference and also the participants.

(Prakash Javadekar)
