Hi Ranjana, Subha, Prathibha,

Sincere thanks to all three of you for sharing your knowledge with us on a topic which is so new.

Having understood our background and the role we play, you had simplified the concept for us.

Over and above the positive feedback you heard during the call, one more colleague has written to me on her experience.

Thanks once again for spending time with us.

Best Regards**Krishnaveni Nagarajan****Vice President – Risk & Control**

Subject: RE: Training on Cloud Concepts

Hi Kv,

Thank you for arranging the session. It was a great learning for all of us. My experience with this session is completely positive as the topic was interesting and I could understand the concept clearly even with my background being Commerce.

Looking forward to attend more such sessions on Cyber Forensics & information security.

Thanks and Regards,

Neela Chittaranjan
