ABOUT THE INSTITUTION

Sri Sai Ram Engineering College, Chennai, established in the year 1995 by MJF.Ln.Leo Muthu, Chairman of Sapthagiri Educational Trust, is non-profitable, and non-minority institution. The College is functioning at Sai Leo Nagar in a sprawling campus of 300 acres near the well-known fascinating Theme Park, "Kishkinta". Imbued with the message of Shridi saibaba, our chairman ventured into the realm of providing quality technical education to both urban and rural. Now Sri Sai Ram Engineering College has developed into a reputed engineering Institution with ISO: 9001:2008 certifications and most of our Engineering Programmes got accredited by the National Board of Accreditation. The college is affiliated to Anna University and also approved by All India council for Technical Education, New Delhi.

ABOUT THE DEPARTMENT

The department of Information Technology was established in the year 1999. The Placement record of the department is excelling and is towering to almost 90% every year. The department poses an excellent and progressive academic record. Every year the department organizes a national level technical symposium christened "Sai Techcellence" which attracts participation from numerous colleges from different parts of the country. The department has been accredited by National Board of Accreditation, AICTE New Delhi. The department library provides useful resources to students with books of reputed publishers and 500 volumes, two international journals and three national journals. The department has produced 107 Anna University ranks in the university examinations including three gold

medals. Department has received funds from government agencies for research projects, faculty development programme and MODROBS.

FDP OBJECTIVE

Python is a general purpose programming language created in the late 1980s, and named after Monty Python, that's used by thousands of people to do things from testing microchips at Intel, to powering Instagram, to building video games etc., Python finds its place amongst developer community because it very closely resembles the English language, using words like 'not' and 'in' to make it to where you can very often read a program, or script, aloud to someone else and not feel like you're speaking some arcane language. Python is a versatile and widely-used programming language with many applications. In this workshop, participants will get an insight into the essentials of programming in Python with an hands-on experience on all aspects listed below. To provide the Hands-on training session for faculty members on "**PYTHON PROGRAMMING**" for Regulation 2017, Anna University, Chennai

TOPICS TO BE COVERED

- Introduction to Python
- Python programs with conditionals and loops
- Function calling
- Data structures in Python
- File handling in Python
- Hands-on Session
